

Project Launch & Overview

2C4Kidney : EXCHANGING GOOD PRACTICES FOR DISSEMINATING THE IDEA AND PRESENTING THE BENEFITS OF CONSERVATIVE CARE FOR PATIENTS WITH CHRONIC KIDNEY DISEASE

Project Introduction

2C4Kidney is a European Erasmus+ initiative dedicated to raising awareness and promoting understanding of Conservative Care for Chronic Kidney Disease (CKD). The project aims to support early diagnosis, informed choices, and equitable care for elderly and frail patients for whom dialysis or transplantation may not be suitable. Through collaboration, education, and innovation, 2C4Kidney seeks to improve the lives of patients, caregivers, and healthcare professionals across Europe.

Co-funded by the
Erasmus+ Programme
of the European Union

Project Objectives

Main Activities

- Share good practices in CKD management
- Support early diagnosis and informed choices
- Raise public awareness and reduce inequalities
- Educate patients, caregivers & professionals
- Improve communication between patients & doctors
- Project management and coordination
- Transnational project meetings (Greece, Spain, Türkiye)
- Learning, teaching, and training activities (virtual events, webinars)
- Focus groups in partner countries
- Development of a Good Practice Guide and educational resources
- Dissemination through website, newsletters, and events

Meet the Partners

Saronic Nephrological Center Ltd (Greece) – Coordinator
